## When to use these tables

These PAYE tables should be used for pay periods ending on or after 1 October 2010. If your pay period ends before 1 October but your payday falls on or after 1 October you should use the PAYE tables applying from 1 April 2010.

# Introduction

PAYE stands for “pay as you earn”. Employers must deduct PAYE from the earnings of people who work for them and pay it to us.

This booklet tells you how to work out the amount of PAYE to deduct. PAYE means the combined income tax and ACC earners' levy, unless otherwise stated. This booklet also covers all the different rates you may need to use.

Besides PAYE, there are other amounts you may have to deduct from your employees' pay – these include student loan repayments, child support\* and KiwiSaver deductions.

\* Child support deductions are not included in this booklet.

To help you easily find the tables that you require, they are colour-coded:

**Purple** – four-weekly table

**Blue** – monthly table

**Maroon** – secondary tables.

You can also use our website PAYE calculator to calculate PAYE on an employee's gross wages. Or, if you've paid an amount to an employee, the calculator will work out how much PAYE you'll have to account for on the amount paid.

## Changes to note

From 1 October 2010, the following changes come into effect:

- New tax rates apply to primary and secondary income
- ACC earners' levy has increased as a result of GST increasing.
- Secondary earnings has a new look, and has now combined all the secondary tax codes to appear on every page of earnings. Prior years each secondary tax code had its own section.

### *Employer's guide (IR 335)*

*Our Employer's guide (IR 335)* will help you fulfil your obligations as an employer. It explains how to deduct PAYE, child support, student loan and KiwiSaver deductions and how to forward these payments to us.

## Part 1 – General

### Employer responsibilities

All employers must register with us and have an IRD number. If you haven't registered as an employer complete an *Employer registration (IR 334)* form.

Employers must deduct PAYE from all remuneration paid to employees. This PAYE, plus any student loan repayments, child support payments and any ESCT (employer superannuation contribution tax), must be paid to us by the due date.

All employers must fill in an *Employer monthly schedule (IR 348)* with details of deductions made from their employees' pay. Large employers must file their monthly schedule electronically. For more information on electronic filing visit our website [www.ird.govt.nz](http://www.ird.govt.nz) 'Get it done online'.

### Declarations and tax codes

All new employees must complete a *Tax code declaration (IR 330)* when they start working for you.

If an employee wants to change their tax code they must complete a new IR 330, reading the notes on the form, to work out their new tax code.

You must keep all completed IR 330's for seven years after the last wages payment is made to the employee.

### Special tax codes

An employee may provide you with a *Special tax code or deduction rate (IR 23)* certificate. This shows a particular rate you must use for their PAYE. You'll have to work out the tax manually, as the rate may not match the PAYE calculations in these tables. The rate shown on the IR 23 will include ACC earners' levy, unless the income isn't liable. It may also authorise you to deduct student loan repayments at a specified rate.

#### Note

Companies or contractors carrying out contracts in the agricultural, horticultural or viticultural industries may hold an IR 23 certificate.

For more information on IR 23 certificates, please see to our *Employer's guide (IR 335)*.

### New low rate of secondary tax

To ensure that salary and wage earners whose annual income is \$14,000 or less are not over taxed on any secondary income, a new secondary tax rate of 10.5% has been introduced. New or existing employees will be able to select the new SB or "Secondary Bottom" tax code on the *Tax code declaration (IR 330)* form from the 1st April 2010. In order to qualify for the new low secondary rate the employee must reasonably expect that their taxable income for the year will be \$14,000 or less.

As an employer SB will need to be entered in the tax code field on the *Employer monthly schedule (IR 348)* for any employee electing it. A new SB calculation has been added to the secondary earnings section of the *PAYE tables (IR 340 & IR 341)*, and to the online PAYE calculator. These are available to use at [www.ird.govt.nz](http://www.ird.govt.nz)

### Independent earner tax credit (IETC)

The IETC is a tax credit for individuals who are New Zealand tax residents, and whose annual income is between \$24,000 and \$48,000. To be eligible to use this tax code your employee:

- or partner must not be entitled to working for families tax credits
- or partner must not receive an overseas equivalent of working for families tax credits
- must not receive an income tested benefit, NZ super, veterans pension or an overseas equivalent.

To receive the IETC weekly as part of their pay, employees will need to select a new tax code on a *Tax code declaration (IR 330)*. If they are unsure if they will qualify they can continue to use the same tax code and request an end-of-year square-up from Inland Revenue. They can only choose a new tax code for their main source of salary/wage income

The tax codes are:

- ME** for non-student loan borrowers who qualify, and
- ME SL** for student loan borrowers who qualify.

## ACC earners' levy

All employees must pay an ACC earners' levy to cover the cost of non-work injuries. They must also pay an earners' account residual levy to fund the cost of non-work injuries claimed from 1 April 1992 to 30 June 1999. We collect these on behalf of the Accident Compensation Corporation (ACC).

For PAYE purposes, the earners' levy deduction includes both the earners' levy amount and the earners' account residual levy amount. The earners' levy (including the earners' account residual levy) is already included in the PAYE amounts so you don't have to do any extra calculations.

### ACC rates

The earners' levy deduction, from 1 October 2010 is \$2.04 GST-inclusive per \$100 of earnings.

### ACC maximum earnings

The maximum earnings on which the earners' levy deduction is payable is \$110,018.

For the tax code M, the earners' levy deduction:

- in the four-weekly table is not deducted on four-weekly salary or wages greater than \$8,980.
- in the monthly table is not deducted on monthly salary or wages greater than \$10,000.

The maximum is not applied to PAYE on:

- regular secondary income
- casual agricultural employee payments
- election day workers' earnings
- earnings on which the no-notification rate is used.

Schedular payments are subject only to a tax deduction. People or entities receiving schedular payments are responsible for paying their own ACC levies.

Remember, these tables already have the earners' levy built into them. If your employees pay is greater than the amounts shown in the tables then the examples at the end of each section will show how to calculate the PAYE.

## Student loan repayments

Employers are required to deduct student loan repayments through the PAYE system when an employee completes a *Tax code declaration (IR 330)* using one of these codes: M SL, ME SL, S SL, SH SL or ST SL.

Employees with student loans who only have one main job should use the M SL or ME SL tax code. This code includes student loan repayments which are set at 10 cents in the dollar for every dollar earned over the repayment threshold of \$19,084 per annum (\$367 per week).

Where an employee uses S SL, SH SL or ST SL tax codes, the tables deduct student loan repayments at 10 cents in the dollar from every dollar earned. There is no SB SL tax code as any employee who qualifies to use the SB tax code will be earning less than the student loan repayment threshold. You also need to deduct student loan repayments at this rate from redundancy and lump sum payments.

### Note

An employee may provide you with a *Special tax code or deduction rate (IR 23)* certificate requesting student loan repayments be made at a different rate. You'll need to calculate deductions at the rate shown on the IR 23.

Don't deduct student loan repayments for casual agricultural employees, election day workers, people on schedular payments or people on the no-notification rate.

There are penalties for failure to deduct or account for student loan repayments.

For more information on how to account for student loan repayments see our *Employer's guide (IR 335)*.

## Schedular payments

There are different rates of tax on schedular payments, which depend on the type of work being done. The rates are listed on page 13 of this booklet and on page 4 of the *Tax code declaration (IR 330)*. Find the rate which applies to the work being done and deduct tax at that rate from the gross payment.

### Note

If the person or entity working for you is GST-registered please show the GST-exclusive amount on the employer monthly schedule. For more information see our *Employer's guide (IR 335)*.

## KiwiSaver

KiwiSaver is a voluntary, long-term savings initiative. As an employer, you'll need to provide employees with information about KiwiSaver, deduct KiwiSaver contributions from their pay and contribute a percentage of your employees' salary and wages as employer contributions.

All employers are required to enrol all new eligible employees into KiwiSaver, unless an exemption applies.

### Employee deductions

All eligible salary and wage earners must complete a *KiwiSaver deduction form (KS 2)* when they start working for you. You must keep this form for seven years, along with other wage records. This form will include the rate at which your employee has elected to have KiwiSaver deductions made from their pay, either 2%, 4% or 8%. If employees who are subject to automatic enrolment do not supply you with a KS 2 form, the default deduction rate is 2% of their gross salary or wages.

### Employer contributions

An employer's superannuation contribution is a contribution in money made to a superannuation fund by an employer for the benefit of their employees. It does not include an employee deduction.

You must contribute a minimum of 2% of your employees' gross salary or wages. You can contribute more if you want to but it may be liable for ESCT (employer's superannuation contribution tax) on the excess of 2%.

To make it easier for you to calculate your compulsory employer contributions (CEC) we have updated the PAYE tables. You can find these under the column "CEC". Your employer contributions must be shown in the KiwiSaver employer contribution column on the *Employer monthly schedule (IR 348)* and the monthly totals must be transferred to the *Employer deductions (IR 345)* form.

### Employer Superannuation Contributions Tax

Employer superannuation contributions paid into a KiwiSaver scheme or a Complying Fund are exempt from ESCT as long as it is no more than the compulsory contribution rate under the KiwiSaver Act, which is currently 2% of the employee's gross salary or wage.

ESCT is payable on the employer's contribution over the exempt amount.

### How to calculate ESCT

Employer superannuation contribution tax (ESCT), formerly specified superannuation contribution withholding tax (SSCWT), can be taxed in one of the following ways:

- at a flat rate of 33 cents in the dollar, or
- an optional ESCT rate based on either:
  - the annual salary or wages plus gross employer contributions paid to the employee in the previous standard tax year (where the employee was employed for all of that year), or
  - an estimate of the total amount of salary or wages plus gross employer contributions that the employee will earn in the year ahead (where the employee was not employed for all of the previous tax year).

For more information on KiwiSaver go to [www.ird.govt.nz/kiwisaver](http://www.ird.govt.nz/kiwisaver)

### Running totals

Running totals are your gross earnings and PAYE deductions paid since 1 April. You can check your running totals for the current and the immediately preceding tax year by calling our 0800 self-service—see page 3.

### Late payment

We may charge you interest if you don't make your tax payment by the due date. We'll also charge you a late payment penalty if you make a payment late.

If your tax is paid late we'll charge an initial 1% late payment penalty on the day after the due date. We'll charge a further 4% penalty if there is still an amount of unpaid tax (including penalties) seven days after the due date.

A further 1% incremental penalty will be charged in every month the amount owing remains unpaid after the due date, unless you enter into an arrangement (see below).

Interest and late payment penalties are not charged on outstanding amounts of \$100 or less.

### Arrangements

If you're unable to pay your tax by the due date, please call us. We'll look at your payment options, which may include an instalment arrangement depending on your circumstances. Arrangements can be agreed on before or after the due date for payment. There are greater reductions in the penalties charged if the arrangement is made before the due date.

## Part 2 – Using these tables

The PAYE tables shown in this booklet are for four-weekly and monthly pay periods and secondary employment.

### Four-weekly and monthly

Use these tables to calculate how much PAYE to deduct from primary employment earnings for four-weekly and monthly pay periods.

To calculate PAYE for pay periods other than four-weekly or monthly, see page 8.

#### The PAYE on primary employment is:

- 12.54% on income up to \$14,000
- 19.54% on income from \$14,001 up to \$48,000
- 32.04% on income from \$48,001 up to \$70,000
- 35.04% on income from \$70,001 up to \$110,018.

Income over \$110,018 is taxed at 33%, as this is the maximum liable for earners' levy.

Employees who qualify for the independent earners tax credit will have their PAYE reduced by \$10 per week, for income between \$24,000 and \$44,000. This tax credit will reduce by \$0.13 for each extra dollar they earn over \$44,000, reaching a nil entitlement at \$48,000.

This tax credit is built into the PAYE tables, so no additional calculations will be required by employers.

### Secondary employment

These tables apply to people who already have a primary source of income such as a regular job, a taxable pension, an income-tested benefit or a student allowance, and who take on a second job. The PAYE to be deducted from secondary employment income will depend on the secondary tax code used on their declaration.

Tax code	if annual income from all sources is likely to be
SB	\$0 to \$14,000 inclusive
S or S SL	\$14,001 to \$48,000 inclusive
SH or SH SL	\$48,001 to \$70,000 inclusive
ST or ST SL	more than \$70,000

Deduct PAYE at a flat rate of:

- 12.54 cents in the dollar for the SB tax code
- 19.54 cents in the dollar for the S and S SL tax codes
- 32.04 cents in the dollar for the SH and SH SL tax codes
- 35.04 cents in the dollar for the ST and ST SL tax codes.

#### Note

For S SL, SH SL and ST SL an additional amount of 10 cents for every dollar earned will also need to be deducted for student loan repayments.

## How to calculate employee PAYE deductions

- Take basic four-weekly or monthly pay.
- Add overtime, any regular bonus, shift allowance, value of board and lodging, and any other taxable allowance.

The total is "earnings subject to PAYE".

Overtime is treated as ordinary pay. Add it into the salary or wages you've paid for that pay period then deduct PAYE in the usual way. It doesn't matter if the overtime was actually worked in another pay period.

#### Example

Basic four-weekly pay is \$1,368 and overtime \$206.40 at tax code M SL.

Basic four-weekly pay	\$1,368.00
Add overtime	\$ 206.40
Earnings subject to PAYE (and other deductions)	\$1,574.40

### Main source of income (M, ME or ML)

Find the amount of earnings in the correct table. If the exact amount of earnings is not shown in the table, use the nearest lower figure.\* Deduct the amount of PAYE, student loan repayments and/or KiwiSaver deductions shown opposite the employee's earnings in the column headed with the employee's tax code (M SL in this case).

In the above example the total earnings are \$1,574.40. The nearest lower figure in the table is \$1,572. Find the PAYE, student loan and KiwiSaver deductions in the columns opposite this amount.

#### Note

\* Calculation of PAYE in this booklet may differ slightly from the results produced by Inland Revenue's online PAYE/KiwiSaver calculator.

Add any non-taxable allowances after the PAYE, student loan repayments and KiwiSaver employee contributions have been deducted.

The take-home pay is:

- the amount of earnings subject to PAYE
- less PAYE
- less student loan repayment
- less KiwiSaver employee deductions
- plus any non-taxable allowance.

**Other than four-weekly or monthly pay periods**

These tables show you how to calculate the PAYE for regular four-weekly or monthly pay periods. Here are some notes to help you with other pay periods.

**Daily or casual basis**

See the table below for an example of daily or casual basis PAYE. For employees who work on a daily or casual basis, there are two ways to calculate how much PAYE to deduct. Either:

- add up the employee's earnings for each week, and use the four-weekly table to calculate the PAYE on those earnings, or
- work out the PAYE progressively if the employee is paid on a daily basis each week, so as weekly income increases, the PAYE you must deduct increases.

**Example – daily or casual basis**

An employee works on Monday, Tuesday and Friday of the same week, earning \$125 each day. The employee is paid on each day worked and is on the M tax code.

Earnings for week	(A) PAYE on week's earnings to date (M code)	(B) PAYE already deducted that week	(A – B) PAYE to deduct today from \$125	Actual amount paid to employee each day
\$125 Monday Calculate PAYE on \$125 using weekly table	15.67	–	15.67	109.33
Plus \$125 Tuesday = \$250 Calculate PAYE on \$250 using weekly table	31.35	15.67	15.68	109.32
Plus \$125 Friday = \$375 Calculate PAYE on \$375 using weekly table	54.42	31.35	23.07	101.93

**Three-weekly pay periods**

If you pay wages three-weekly, you'll need the 2011 *Weekly and fortnightly PAYE deduction tables (IR 340)* – October 2010 version.

Calculate the PAYE as follows:

- Divide the three-weekly wage by 3 to get the weekly income.
- Use the weekly tables to find the PAYE.
- Multiply the weekly PAYE by 3.

This is the three-weekly PAYE deduction.

**Half-monthly pay periods**

Calculate the PAYE as follows:

- Double the taxable earnings for the half-monthly period.
- Calculate PAYE on this amount using the monthly table.
- Divide the monthly PAYE deduction by 2.

This is the PAYE to deduct for the half month.

**Change of pay period**

If you change a pay period but not the day of the week you pay wages or salaries, use the PAYE table that covers the new pay period.

**Example**

River Industries changed its pay period from four-weekly to fortnightly. The employees are still paid on a Friday. The fortnightly PAYE table is used from the first payday of the new fortnightly pay period.

**Changed payday**

If the day that the pay period ends is also changed, there will be a "broken period" between the end of the old period and the beginning of the new.

Calculate the PAYE as follows:

- Increase the taxable earnings proportionately for the broken period to show the amount payable for the whole of the original pay period.
- Calculate the PAYE on the increased figure using the table for the old pay period.
- Reduce the PAYE proportionately to match the actual earnings for the broken period.

**Example**

A four-weekly pay period Monday to Friday (twenty working days) is changed to a fortnightly (ten working days) period. The fortnight ends on Wednesday. The broken period is from Monday to the following Wednesday which is eight days out of the old twenty-day period. An employee's taxable earnings for the eight days is \$600.

Increase \$600 to four-weekly pay (20/8 x \$600)	\$1,500.00
PAYE on \$1,500 (using four-weekly table)	\$ 217.68
PAYE deduction for wages for the broken period (8/20 x \$217.68)	\$ 87.07

**Less than a full pay period**

If an employee starts working for you, finishes working for you, or loses any pay during a period, treat the earnings as if they were earned over the full pay period.

**Example**

Wood Industries Ltd has a monthly pay period. A new employee starts work halfway through the month. The PAYE for the new employee's first pay is calculated using the monthly table, in the same way as a full month's pay.

**Tax rate changes and pay periods around 30 September**

There are two situations that may occur:

- the last pay period before the 1 October rate changes runs into October
- a pay period ends on or before 30 September, but the wages are paid in October or later.

In both cases, it doesn't matter when the pay period starts or ends. You must include wages or salaries on the employer monthly schedule for the period in which the payment is actually made.

These PAYE tables should be used for pay periods ending on or after 1 October 2010. If your pay period ends before 1 October but your payday falls on or after 1 October you should use the previous 2011 PAYE tables applying from 1 April 2010.

**Example****Pay periods around 30 September**

Employer pays wages every fourth Thursday for the four weeks ending on the previous Friday. An employee's earnings are \$1,200 for the four weeks with a M tax code. See the table below.

Pay period ending	30 September 2010
Payday	1 October 2010
Gross wages	\$1,200
PAYE*	\$184.44
Include in EMS for period ending	31 October 2010

\* Use 2011 tables applying from 1 April 2010

**No-notification rate**

Use this rate when an employee, receiving a salary or wage, or entity receiving schedular payments, doesn't give you a fully completed *Tax code declaration (IR 330)*. You are legally required to use the no-notification rate if they:

- don't enter their IRD number, or
- leave out any personal details, or
- don't enter a tax code.

The rate you deduct is either:

- PAYE of 47.04 cents in the dollar (which includes earners' levy) for employees, or
- generally 15 cents in the dollar on top of the normal rate of tax for persons or entities receiving schedular payments—see page 13.

**How to calculate PAYE at the no-notification rate for salary and wages**

- Take gross earnings.
- Add the value of taxable allowances, if any.
- The total is "earnings subject to PAYE".
- Work out PAYE, at the rate of 47.04 cents in the dollar (which includes earners' levy). Use whole dollars only.

**Example****No-notification rate**

Basic weekly pay	\$1,585.75.
The tax on whole dollars is	\$1,585 x 47.04 cents in the dollar.
PAYE to be deducted	\$ 745.58

**Holiday pay**

Include holiday pay and pay for statutory holidays as earnings in the period that you actually pay them. Before calculating your employees' holiday pay, please check your obligations under the Holidays Act 2003.

**For more help**

For information about holiday pay rules see the Department of Labour's booklet *Holidays and leave – an employer's guide*. To get a copy, call the Department of Labour's Employment Relations Infoline on 0800 209 020 or go to [www.ers.dol.govt.nz](http://www.ers.dol.govt.nz)

**Four weeks' holiday pay**

Use the four-weekly tables to calculate the total PAYE to deduct.

**8% of wages as holiday pay**

Calculate the PAYE as follows:

- Break down the payment into weekly amounts, based on the normal weekly wage.
- Calculate the PAYE using the weekly PAYE table.

**Example**

Employee's normal weekly wages with (M) tax code	\$ 290.00
Amount of holiday pay	\$ 145.00
	\$ 435.00

To calculate the PAYE on this holiday pay, break the payment down into:

- one weekly payment of \$290, and
- one weekly payment of \$145.

PAYE on \$290 (using the weekly table)	\$ 37.81
PAYE on \$145 (using the weekly table)	\$ 18.18
Total PAYE deducted from holiday pay	\$ 55.99

You can use the holiday pay calculator on [www.ird.govt.nz](http://www.ird.govt.nz) to work out how much you need to deduct, or you can call us on 0800 377 772.

## Lump sums payments

### Extra pays

Lump sum payments include annual or special bonuses, retiring or redundancy payments, payments for accepting restrictive covenants, exit inducement payments, gratuities, or back pay. These are also called "extra pays".

#### Notes

- A new PAYE rate of 12.54% applies from 1 October 2010 for those who have total taxable income of \$14,000 or less.
- If a lump sum is paid to a person in relation to their secondary source of income after 1 April 2010, there is a new calculation which must be used to work out the correct amount of PAYE for that payment.

### Lump sum payments from primary employment

Lump sum payments include annual or special bonuses, retiring or redundancy payments, payments for accepting restrictive covenants, exit inducement payments, gratuities or back pay. Overtime or any regular payments are not lump sum payments.

### PAYE applies to lump sum payments as follows:

- **At a flat rate of 12.54 cents** in the dollar
  - when the combined total of the lump sum payment and the grossed-up annual value of the employee's income for the previous four weeks is \$14,000 or less
- **At a flat rate of 19.54 cents** in the dollar
  - when the combined total of the lump sum payment and the grossed-up annual value of the employee's income for the previous four weeks is from \$14,001 to \$48,000.
- **At a flat rate of 32.04 cents** in the dollar
  - when the combined total of the lump sum payment and the grossed-up annual value of the employee's income for the previous four weeks is from \$48,001 to \$70,000.
- **At a flat rate of 35.04 cents** in the dollar
  - when the combined total of the lump sum payment and the grossed-up annual value of the employee's income for the previous four weeks is greater than \$70,000, but less than the ACC earners levy maximum threshold of \$110,018 (for the 2011 tax year). Amounts above this level should have PAYE applied at 33%, or
  - when the employee asks you to use this rate.

#### Note

- ACC earner levy and Residual Earner levy do not apply to retiring or redundancy payments. These should have PAYE applied at 10.5%, 17.5%, 30%, 33%, according to annualised income.
- If the lump sum has PAYE applied using the lowest rate (12.54%), tick the box on the *Employer monthly schedule* (IR 348) to show this.

#### Example

You're going to pay a bonus payment of \$400 to one of your employees. The employee's gross earnings for the last four weeks were \$2,500. The calculation will look like this:

Annualised income (13 × \$2,500)	\$32,500
Add the bonus payment	\$400
Total	\$32,900

In this example, the income level is less than \$48,000, so the PAYE rate applied to the bonus payment is 19.54 cents in the dollar. If the employee uses a student loan tax code (M SL, ME SL, S SL, SH SL or ST SL) you'll also have to deduct student loan repayments.

#### Note

If the employee is a KiwiSaver member, you'll need to deduct contributions from lump sum payments.

### Lump sum payments from secondary employment

A new calculation for calculating the amount of PAYE to apply to lump sum payments has been introduced. The new calculation takes into account the minimum level of income the employee expects to receive from their primary employment, based on the secondary tax code they have selected.

The calculation for the amount of PAYE on an extra pay for employees using a secondary tax code is:

- the amount of the extra pay,
- plus annualised income,\*
- plus the low threshold amount, (based on the secondary tax code used as in table one)
- equals the annual income estimate

\*Annualised income is calculated by adding up the PAYE income payments for the four weeks ending on the date of the extra payment, whether this is the normal pay cycle or not, and multiplying by 13. The amount of the extra pay is not included in this total.

#### Table one, low threshold amounts

Tax code	Low Threshold Amount
SB	\$0
S	\$14,001
SH	\$48,001
ST	\$70,001

#### Table two, income range and PAYE rates

Annual income estimate (from the calculation above)	PAYE rate (includes 2.04% ACC earners' levy)	Student loan
\$0 – \$14,000	12.54%	
\$14,001 – \$48,000	19.54	+ 10%
\$48,001 – \$70,000	32.04%	+ 10%
Over \$70,000	35.04%	+ 10%

If the annual income estimate is less than \$110,018 then the amount of PAYE on the full extra pay should be calculated using the rate shown in table two.

If the annualised income plus the low threshold amount is greater than \$110,018 then none of the extra pay is liable for ACC and the PAYE rate is 33%.

If the annualised income plus the low threshold amount is lower than \$110,018, but the annual income estimate exceeds \$110,018, then the amount of PAYE applied to the extra pay which falls below the threshold is calculated at the rate in table two, but the amount of extra pay above the threshold has PAYE applied without the ACC earner levy (i.e. at 33%). See the example below.

### Example

Jane has a second job and uses the ST tax code. Jane's secondary employer wants to pay her a one-off bonus of \$10,000. In the last four weeks Jane has earned \$2,695 from her second job.

Applying the calculation (overleaf), Jane's employer can work out the amount of PAYE on her bonus:

The annualised income ( $\$2,695 \times 13$ )	\$ 35,035
Plus low threshold amount (ST, tax code, table one)	<u>\$ 70,001</u>
	\$ 105,036
Plus the amount of the extra pay	<u>\$ 10,000</u>
Annual income amount	\$ 115,036

The annualised income plus the low threshold amount is below the threshold of \$110,018. But when the extra pay is added, the annual income estimate exceeds \$110,018, so the ACC earner levy should only be applied to earnings below the threshold.

### Note

In this example Tax and ACC are calculated on the full bonus, and then the excess ACC is deducted.

### Calculation

$$\$10,000 \times 35.04\% = \$3,504$$

Annual income estimate – ACC threshold = extra pay not liable for ACC

$$\$115,036 - \$110,018^* = \$5,018$$

$$\$5,018 \times 2.04\% = \$102.36$$

$$\$3,504 - \$102.36 = \$3,401.64$$

Amount of PAYE applied to the extra pay = \$3,401.64

\*The maximum amount of earnings on which an ACC earner's levy and Earner's Account Residual levy is payable for the year ending 31 March 2011.

### Redundancy payments and retiring allowances

Redundancy payments and retiring allowances are not subject to earners' levy. For primary employment the tax rate is one of the following:

### Primary employment

- **10.5 cents** in the dollar.
  - when the combined total of the payment and the grossed-up annual value of the employee's income for the previous four weeks is \$14,000 or less
- **17.5 cents** in the dollar
  - when the combined total of the payment and the grossed-up annual value of the employee's income for the previous four weeks is \$14,001 to \$48,000.
- **30 cents** in the dollar
  - when the combined total of the payment and the grossed-up annual value of the employee's income for the previous four weeks is \$48,001 to \$70,000
- **33 cents** in the dollar
  - when the combined total of the payment and the grossed-up annual value of the employee's income for the previous four weeks is greater than \$70,000 or
  - when the employee asks you to use this rate.

### Example

You're making a redundancy payment of \$10,200.50. The employee's total wages for the last four weeks are \$2,800. The calculation will look like this:

Annual income ( $13 \times \$2,800$ )	\$ 36,400.00
Add the redundancy payment	<u>\$ 10,200.50</u>
Total	\$ 46,600.50

In this example, the income level is greater than \$14,001 but less than \$48,000 so the tax rate applied to the redundancy payment is 17.5 cents in the dollar.

For secondary employment the tax rate is one of the following:

### Secondary employment

- **10.5 cents in the dollar**
  - when the combined total of the payment and the grossed-up annual value of the employee's income for the previous four weeks, plus the low threshold amount for their secondary tax code is \$14,000 or less
- **17.5 cents in the dollar**
  - when the combined total of the payment and the grossed-up annual value of the employee's income for the previous four weeks, plus the low threshold amount for their secondary tax code is from \$14,001 to \$48,000.
- **30 cents in the dollar**
  - when the combined total of the payment and the grossed-up annual value of the employee's income for the previous four weeks, plus the low threshold amount for their secondary tax code is from \$48,001 to \$70,000 or
- **33 cents in the dollar**
  - when the combined total of the payment and the grossed-up annual value of the employee's income for the previous four weeks, plus the low threshold amount for their secondary tax code is greater than \$70,000 or
  - when the employee asks you to use this rate.

### Student loan repayment on redundancy payments (tax codes M SL, ME SL, S SL, SH SL and ST SL)

#### Example

You're making a redundancy payment of \$10,200.50. The employee's total wages for the last four weeks are \$2,800. The employee is using a SH SL tax code. The calculation will look like this:

Annual income (13 x \$2,800)	\$ 36,400.00
Add the redundancy payment	\$ 10,200.50
Add the low threshold amount	<u>\$ 48,001.00</u>
Total	<u>\$ 94,601.50</u>

In this example, the income level is greater than \$70,000, so the tax rate applied to the redundancy payment is 33 cents in the dollar.

#### Note

If your employee is a KiwiSaver member, please don't make KiwiSaver deductions from their redundancy payments. Redundancy payments are exempt from KiwiSaver deductions.

## Casual agricultural employees and election day workers

The term "casual agricultural employees" includes shedhands, shearing shedhands and casual agricultural workers. The flat rate of PAYE for casual agricultural employees and election day workers is 19.54 cents in the dollar, which includes earners' levy.

Calculate the PAYE as follows:

- Take gross earnings.
- Add the value of taxable allowances, if any.
- The total is "earnings subject to PAYE".
- Work out PAYE at the rate of 19.54 cents in the dollar. Use whole dollars only.

#### Example

Earnings as a shedhand	\$ 135.00
PAYE to be deducted at 19.54 cents	\$ 26.37
